

REFINC NEWSLETTER

INCREASING
PARTICIPATION OF
REFUGEES IN
EUROPIAN SCHOOLS

WHAT'S
NEW?

Kick off
meeting,
April,
Burgos,
Spain

Vision: At the heart of Project REFINC lies a profound vision: to enhance refugee children's participation in schools, fostering an inclusive educational landscape that embraces diversity and offers equal opportunities for all. Our commitment is unwavering as we strive to build bridges of understanding, compassion, and empowerment in the classrooms of Europe.

Objective: In light of the ongoing challenges surrounding the integration of refugee students into European school systems, Project REFINC stands as a beacon of change. Our primary objective is to enhance the quality of teaching for refugee students by providing a comprehensive teacher training program and toolkit. With the influx of refugees seeking peace and safety, it's imperative that European schools are equipped to welcome and nurture every child that crosses their threshold.

SCHOOL FOR EVERYONE

Goals:

- Increase participation of refugee children in schools across Europe.
- Encourage refugee children to complete their education.
- Create a better future for refugee children by providing them with the tools they need to succeed.

We are excited to announce that Project REFINC has officially commenced with a kick-off meeting held in Burgos, Spain, in April. This marks the beginning of a collaborative effort to transform education and uplift the lives of refugee children across Europe.

Project REFINC recognizes the urgency of adapting existing funding programs to support staff and students in need. Migrant children often face lower learning outcomes due to insufficient support. Project REFINC addresses this issue by offering a teacher training program and toolkit specifically designed to meet the needs of vulnerable populations. The cornerstone of Project REFINC is the elevation of teaching quality through a robust teacher training program, toolkit, and practical skillset for working with refugee children. By equipping teachers with the necessary tools and knowledge, we empower them to create inclusive and supportive learning environments where every child can thrive.

Outcomes: Through online training, advice, and participation in a community of practice, teachers will enhance their skills in welcoming and teaching refugee children. As a result, refugee children will receive better support in their daily lives, leading to improved academic progress and a brighter future.
